OCEAN TOWER

Electronic fuel dispensers

The fuel dispensers TATSUNO of series OCEAN TOWER serve for dispensing of liquid oil products into road vehicles on retail and commercial outlets.

OCEAN TOWER are progressive single or double sided fuel dispensers with one to ten hoses (maximally five hoses on each fuel dispenser side) for dispensing one to five products. The fuel dispensers are equipped by the highest quality Japanese hydraulic system TATSUNO and by a reliable electronic calculator.

A simple and attractive design with durable materials in addition to composite plastic nozzle boots and countless design configurations lasts longer and offers certain benefit to its users.
